# PhD Program in Functional and Structural Genomics

First Year Courses – December 2019 /  
January 2020

## Friday 6 December – Room 004

09:00-11:00 Neurobiology of Diseases

11:00-13:00 Engineering the mammalian genome

## Monday 9 December – Room 004

09:00-11:00 Structure of RNA

11:00-13:00 Engineering the mammalian genome

## Tuesday 10 December – Room 004

09:00-11:00 Neurobiology of Diseases

11:00-13:00 Engineering the mammalian genome

## Wednesday 11 December – Room 004

09:00-11:00 Structure of RNA

11:00-13:00 Engineering the mammalian genome

## Thursday 12 December – Room 004

11:00-13:00 Engineering the mammalian genome

## Friday 13 December – Room 004

09:00-11:00 Structure of RNA

11:00-13:00 Engineering the mammalian genome

## Monday 16 December – Room 004

09:00-11:00 Engineering the mammalian genome

11:00-13:00 Neurobiology of Diseases

## Tuesday 17 December – Room 004

09:00-11:00 Neurobiology of Diseases

11:00-13:00 Engineering the mammalian genome

## Wednesday 18 December – Room 004

09:00-11:00 Neurobiology of Diseases

11:00-13:00 Engineering the mammalian genome

## Wednesday 8 January – Room 004

11:00-13:00 Neurobiology of Diseases

## Thursday 9 January – Room 004

15:00-17:00 Neurobiology of Diseases

17:00-19:00 Engineering the mammalian genome

## Friday 10 January – Room 004

15:00-17:00 Neurobiology of Diseases

17:00-19:00 Engineering the mammalian genome

## Professors

Antonello Mallamaci

Engineering the mammalian genome

Giuseppe Legname

Neurobiology of Diseases

Giovanni Bussi

Structure of RNA

## Courses will be held in SISSA - main building

The SISSA campus is located in Opicina (Trieste), in Via Bonomea 265. It can be reached via bus 38 leaving from Via Galatti (near Piazza Oberdan).
